EXPERIENCE

Sr Full Stack Engineer — July 2024 - current
Naqdi Global — *Karachi, Pakistan*

- **CMS And Client Portal Management** – Overseeing the development, maintenance, and optimization of the company's CMS and Client portal to ensure seamless content updates and functionality.
- **Marketing Team Collaboration** – Working closely with the marketing team to implement their requirements, enhance user experience, and support campaign initiatives.
- **Full Stack Development** – Handling both frontend and backend development, ensuring performance, security, and scalability of the CMS and Client Portal related web applications.

Sr Mern Stack Developer — Jan 2021 - Feb 2024
Zenkoders — *Karachi, Pakistan*

- **Full-Stack Development** – Orchestrated the end-to-end development of web applications, utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js). Collaborated closely with cross-functional teams to understand project requirements and translate them into scalable and efficient solutions

- **Back-End Development –**Engineered robust server-side solutions using Node.js and Express.js, ensuring seamless communication with the database. Employed MongoDB and SQL for efficient data storage, retrieval, and management.
- Implemented responsive and intuitive user interfaces, enhancing overall user experiences. Employed industry best practices in front-end technologies, including HTML5, CSS3, and JavaScript (ES6+), to create visually appealing and user-friendly interfaces.
